Section 6. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

Section 7. Accreditation Pathway

Continuous Improvement. *Summarize progress toward target level performance on the standard(s) selected.*

Standard 6. Progress toward target includes the following changes: In the fall of 2014, the COEHP added a third track in Higher Education to the doctoral program in Curriculum and Leadership. Significant collaboration between academic departments, the P-12 community, and across colleges was critical in implementing the new track. Furthermore, the ongoing collaboration has been important in strengthening the tracks in Curriculum and Leadership. Based on information and feedback from stakeholders, a decision was made to hire a full-time director for the doctoral program. The Director meets regularly with constituents and has worked collaboratively to increase program quality for all three tracks. In the summer of 2014 an off-site location for doctoral students enrolled in the Curriculum and Leadership tracks was developed to meet the needs of the P-12 community in the southwestern region of the state. Continued implementation of the UTeach and Noyce Scholarship Programs is a university-wide effort involving two colleges, the Office of University Advancement, Office of Business and Finance, Office of Grants and Sponsored Programs, Recruitment Office, the Partner School Network, and others. COEHP was one of the first schools in Georgia to pilot the edTPA. As a result, the edTPA coordinator has been in demand for trainings at institutions across the state. These multi-institutional collaborations provide opportunities for EPPs to work together to align the edTPA with standards and to reflect on how best to prepare candidates to be successful in the classroom. Clinical faculty and other school representatives serve on

Program Advisory Councils, Standing Committees, and various ad hoc committees. With support of the COEHP Dean's Office and Office of the Provost, faculty have attended professional conferences nationally and internationally. Support is also provided for opportunities on campus for faculty to engage in dialogue and skill development related to emerging theories and practices. For example, for University faculty and staff, COEHP trainings were offered to improve online teaching, including workshops on Camtasia, D2L, Google Hang-Out, and Collaborate to name a few. Furthermore, several professional book clubs, including topics on creativity, best practices and current research on learning are offered by faculty every year. State-of-the-art facilities such as the Coca Cola Space Science Center, Oxbow Meadows Environmental Learning Center and the Cunningham Center, which houses several classrooms equipped with advanced technology and used for educator preparation, help to create rich learning environments for teacher candidates and other school personnel. A new data management system, LiveText, was implemented in 2012. The Dean's Office provided funding for a full time LiveText coordinator. Connectivity is exceptionally fast and reliable and library resources are excellent. Distance student resources are exemplary.
