

Supplementary Reading Resources

Posters

CARE offers a wide variety of posters related to children's books, learning the alphabet and numbers, text comprehension strategies, long and short vowels, and much more. These posters are great visual aids for students learning about multiple concepts.

Charts

Charts serve as visual aids in the classroom setting. CARE charts vary from understanding how to build a sentence to learning sight words in the categories of basic words, colors, numbers, people, animals, objects, feelings, actions, pronouns, sizes, and positions.

Finger Puppets

CARE has a selection of felt finger puppets that can be used to engage students in multiple books, stories, and rhymes. Our finger puppets include: frog, sheep, rooster, dog, bird, horse, fish, owl, pig, chick, cat, spider, duck, mouse, goat, chicken, bear, fly, cow, and a farmer. Others will be soon added to this collection.
